

# FLECK Europa eaves tape

## PRODUCT INFORMATION

The FLECK Europa eaves tape is a unique, patented roll product. Eaves lengths of 15 metres with only one roll and without interruption can be realised. The inlet width is 170 mm and is equipped with pre-assembled adhesive tapes (two tracks) for bonding the underlay and the eaves supply air elements.

### Material

- EVA extruded with 2 attached adhesive strips
- UV-, weather-, frost-, temperature- and ageing resistant
- Colour: Black
- Material thickness: 2 mm
- Adjustable mounting brackets made of galvanised iron

### Temperature resistance

-30 °C – +90 °C

### Application temperature

+5 °C – +40 °C

### Roll dimensions

- Length: 15 m
- Wide coverage: 170 mm, Projection length: 60 mm

### Weight

- Weight per unit area: approx. 485 g/m
- Roll weight: approx. 7.28 kg

### Adhesive strips

2 × 40 mm width

### Optional accessories

- Eaves supply air element: approx. 200 cm<sup>2</sup>/m
- Eaves comb: approx. 300 cm<sup>2</sup>/m
- Eaves ventilation element with comb: approx. 200 cm<sup>2</sup>/m
